SKILLS

- HTML
- CSS
- JavaScript
- TypeScript
- Tailwind
- NextJS
- GSAP

LANGUAGES

- English (Upper Intermediate/B2)
- Filipino (Upper Intermediate/B2)

PROFILE

Frontend React developer with a passion for building smooth, fast, and easy-to-use interfaces, always exploring new ways to improve my work.

PROJECTS

GulbinDev | Frontend React Web Developer Portfolio

Web Developer

2026 - PRESENT

- A portfolio platform designed to present my frontend React expertise, support strong search engine indexability, and ensure a responsive interface. Optimized GSAP animation executions to maintain smooth performance at initial load.

CrunchTime

2026

Web Developer

- A demonstration website featuring a movie list that highlights my skills in building a fast and responsive site, especially when working with backend data.
- It uses NextJS RSC to reduce the amount of client-side JavaScript sent to the browser, with server-side data caching and progressive streaming through React Suspense to improve perceived performance and lower TTFB.

EDUCATION

Bachelor of Science Information Technology

2021 - 2025

Gingoog City Colleges, Inc.
